WINE EXPERTS

"Vibrant yellow color and hints of gold. A becoming note of maturity is developing in the wine, showing a NV-Champagne-like nose as well as a lager-like, yeasty quality. This is a richer style of Vinho Verde. It has an exotic tinge to it with some attractive oxidation and very nice concentration"

WINEMAKER'S TASTING NOTES

Beyond almonds and olives, the Moors also gave Portugal fragrant orange trees. Come Spring, these delicate white flowers perfume the entire country. Azahar, means citrus flower in Arabic. Bright and lively with delicate orange blossom aromas, green fruit flavors, vibrant minerality, and vegan safe. Consider this your summer relaxing wine.
