

# ARGENTINA

**WINERY:** Jelu

## JELU TORRONTÉS

**GRAPE:** Torrontés

### WINE EXPERTS

The well-tended Torrontés grapes are hand-harvested from high altitude vineyards - 900 meters, and create a fine, aromatic wine. This high-elevation glacial valley produces distinctive wines that are bright, lively and truly expressive of both the winemaker's (Duncan Killinger) passion and the San Juan region itself.

### WINEMAKER'S TASTING NOTES

Delicate floral, white peach, honeysuckle blossom notes, and layers of lychee work together in balance alongside lovely acidity on the palate. This lively white is for light fare, citrus salads and herbed fish.
