WINE EXPERTS

Secreto uses lesser-known varieties to make very expressive fresh and aromatic blends, each with a very closely guarded secret—the wine-maker includes a 15% component that only he knows.

WINEMAKER'S TASTING NOTES

Pale yellow in color with green hues. The wine is intense and fruity with aromas of exotic fruits, white flowers as well as subtle notes of minerals and sea salt. It is fresh on the palate with character, showing expressive, fruity, and mineral notes due to coastal origin. It has a long and pleasant finish.
